**FIRE SAFETY TIMBER ENGINEERING  
 EUROPEAN DEVELOPMENT**

**Tuesday, April 25<sup>th</sup>, 2006  
 08.00 a.m. - 05.30 p.m.**

**Place: University Innsbruck  
 Faculty for Building Engineering  
 Gr. Hörsaal  
 Technikerstraße 13  
 A-6020 Innsbruck**

**holzbaulehrstuhl**

Universität Innsbruck

Schoolbuilding, secondary modern school, Vorarlberg

Conference languages: English and German with simultaneous interpreting

The latest European development in the field of Fire Safety Engineering is subject to one of the most outstanding conferences in this field in Europe. The leading experts from 10 European countries (Estonia, Finland, France, Germany, Italy, The Netherlands, Sweden, Switzerland, United Kingdom and Austria) will present superior papers as can be seen from the programme attached. Special topics will include also the latest R&D results in the field of timber constructions.

You are kindly invited to be present at this conference. It is addressed to authorities, building engineers and architects, building contractors, highschools and universities, standardisation institutes, economic chambers, experts as well as students.

Please use the attached form for your registration.

## Tuesday, April 25<sup>th</sup>, 2006

08.00 a.m. Registration conference office

Discussion

09.00 a.m. Welcome  
Representative of University Innsbruck  
Michael Flach

01.00 p.m. **Lunch**

Representative of proHolz Tyrol  
Helmuth Fritz

French test results of fire resistance of timber connectors  
Patrick Racher

Representative of the Association of the Austrian Wood Industries  
Rainer Handl

The "VALERIE" Project:  
applying fire risk analysis to typical urban situations in Trentino main towns. An example of cooperation between research institutions and fire brigade departments  
Ario Ceccotti/Gabriele Bonamini

09.20 a.m. Which issues are the most challenging ones for the industry?  
Georg Hochreiner

Fire Safety Engineering - new possibilities for wood products  
Esko Mikkola

Wood and Fire. The situation in Estonia and practical experience with EC5-1-2  
Alar Just

Fire regulations in relation to the use of wood products and timber structures in Europe  
Birgit Östman

Discussion

03:20 p.m. **Coffee break**

Necessary European activities for enhanced use of wood  
Stefan Winter

Possibilities for wood in the Netherlands  
Frans Paap

Discussion

Fire safety conceptions  
Thomas Trauner

11.20 a.m. **Coffee break**

BRE - FSE research results in the light of future European R, D&T  
Julie Bregulla

Results of Austrian research activities  
Dietmar Bobacz

Fire risk evaluation  
Hans Hartl

Facades - test results  
Martin Teibinger/Helmut Werner

The Swiss development of fire regulations in the last years  
Reinhard Wiederkehr

Discussion

05:30 p.m. End of conference
